

***RAPID BANDER***® 

**LOAD**  
**CONTAINMENT**  
HAS TWO PARTS:  
**MACHINE**  
**OPTIMIZATION**  
— AND —  
**QUALITY FILM**

**WE'VE GOT**  
**YOU FULLY**  
**COVERED!**

## OUR EQUIPMENT OPTIMIZATION PROCESS

We begin with a thorough on-site evaluation of your current wrapping operation to determine the correct load containment standard. We then generate a comprehensive value analysis that compares current results with what the Rapid Bander will deliver.

Then Rapid Bander is installed on your stretch wrap machine with minimal downtime. We provide the equipment at no charge, you only pay for installation.

Regular System Performance Audits are conducted at no charge to ensure your new load containment and cost standards are maintained.

# RAPID BANDER<sup>®</sup>

## ADVANCED LOAD CONTAINMENT SYSTEM

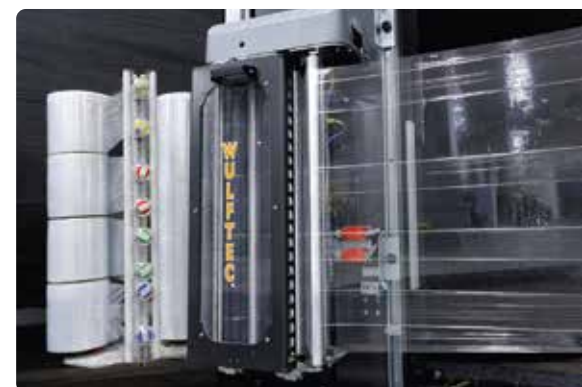

Rapid Bander is a patented dual-roll system that turns your existing stretch wrapper into a high-performance load containment machine.

**STOPS PUNCTURES  
FROM BECOMING  
WEB BREAKS**

**SECURES YOUR  
PALLET WITH  
40 TO 60%  
LESS FILM**

**ATTACHES TO  
YOUR EXISTING  
STRETCH WRAP  
EQUIPMENT**

Let us demonstrate how the **Rapid Bander Advanced Load Containment System** can improve your pallet wrapping operation.

- Reduces stretch film usage by 40 to 60% while significantly increasing load containment.
- Secures your pallets with fewer wraps resulting in greater productivity and reduced wear and tear on your equipment.
- Ties your product to the pallet to help eliminate load shifting.
- Wraps 2 to 3 times more pallets between roll changeovers.
- Reduces your overall costs to wrap your pallets.

## **RAPID SERVICE™**

### **BECAUSE ANY DOWNTIME IS TOO MUCH DOWNTIME**

Allied Packaging's nationwide team of qualified Field Service Engineers offer fast, dependable service for your packaging equipment.

Our Technicians are chosen based on an extensive background in packaging equipment along with broad-reaching understanding of electronics, PLCs, and hydraulics, and factory training on most major packaging equipment.

For all Rapid Technologies equipment, we provide maintenance and training and perform regular audits at no charge, to ensure settings and efficiencies remain optimized.

For all other packaging equipment, we can provide any level of service from one-time troubleshooting to an entire scheduled maintenance program, all at very reasonable cost.

Our scheduled maintenance programs include a 30-point checklist of inspections, as well as 24/7 emergency service to keep you up and running.

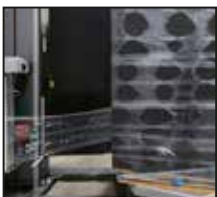

Contact your Allied representative to discuss a maintenance program to suit your needs.

## **RAPID ROPER PLUS™**

### **OUTSTANDING VENTILATION WITHOUT SACRIFICING CONTAINMENT PERFORMANCE**

The **Rapid Roper Plus** Next Generation Ventilated Load Containment System provides superior containment for fresh produce and other products requiring ventilation.

## **RAPID VENT™**

### **THE PERFECT SOLUTION FOR APPLICATIONS THAT NEED AIRFLOW**

**Rapid Vent** can be added to your Rapid Bander device to achieve maximum ventilation in a full-web application where a film clamp is used, allowing your automatic machine to cut and wipe the film.

## **RAPID IQ™**

### **MONITORING THE CRITICAL POINTS OF YOUR PROCESS**

It is assumed that your stretch levels will remain constant, your loads will be wrapped the same, and your machine is performing consistently. The reality is that all things degrade if not monitored and maintained.

## **RAPID LAB™**

### **ADVANCED ANALYSIS FOR SUPERIOR OPTIMIZATION**

Are you using the right amount of packaging – not too much, not too little?  
Our **Advanced Technology Lab** takes the guesswork out of load containment.
